Condition 7 – Switching OEIC funds

- 7.1 You may switch all or part of your Account between OEIC funds at any time.
- 7.2 You may only switch just part of the amount invested in any one OEIC fund if the value of shares remaining in that fund after the switch is £250 or more.
- 7.3 To make the switch we will cash-in however many OEIC fund shares are required at the price on the first valuation point after we receive your instructions. We will use the cash-in value to purchase shares in whichever other OEIC fund(s) you instruct, at the price(s) on the valuation point two working days later. The usual OEIC fund initial charges will apply to the new share purchases.
- 7.4 We do not currently charge for switches, but this could change in future. If we should need to introduce a charge we will let you know about this at least 30 days before we do so.
- 7.5 After the switch we will continue to invest any new payments into the Account between OEIC funds in the same proportions as before the switch, unless you tell us to invest such payments in different proportions.
- 7.6 You may tell us at any time (even if you have not switched OEIC funds) to change the proportion of new payments into the Account invested in different OEIC funds.
